Cultivating Health Classrooms with Empathy and Connection

Have you been frustrated managing a classroom with out-of-control behaviors? Learn to cultivate a nurturing and empathetic classroom climate. You will walk away with hands-on activities and ideas to promote empathy and connection in the classroom. This presentation is less about managing behavior and more about getting to the heart of what children need by modeling assertiveness and respect.

THURSDAY
MAY 16 @ 12-1 PM
Online Via Zoom - Free
